1 to 10 11 to 20 21 to 30 31 to 40 41 to 50 not ranked

Overall Rank:

41

Seniors Health Rank:

41

Women and Children Health Rank:

45

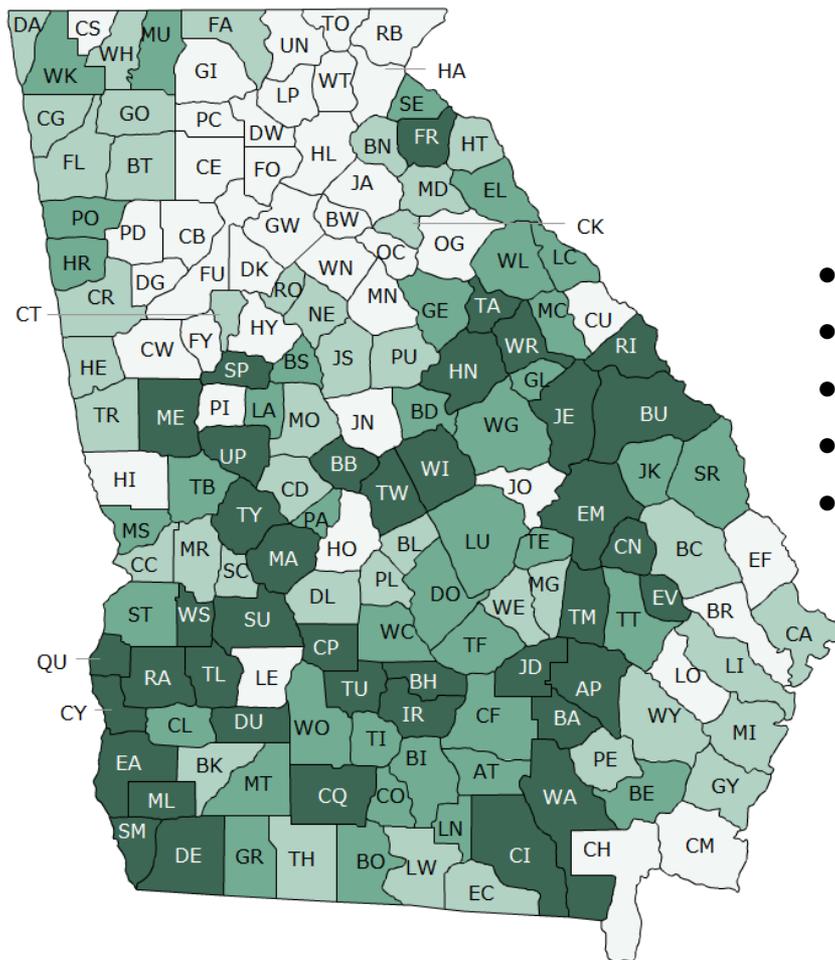

Health Outcomes

Ranked Highest

- Forsyth
- Oconee
- Cherokee
- Fayette
- Gwinnett

Ranked Lowest

- Early
- Turner
- Crisp
- Warren
- Quitman

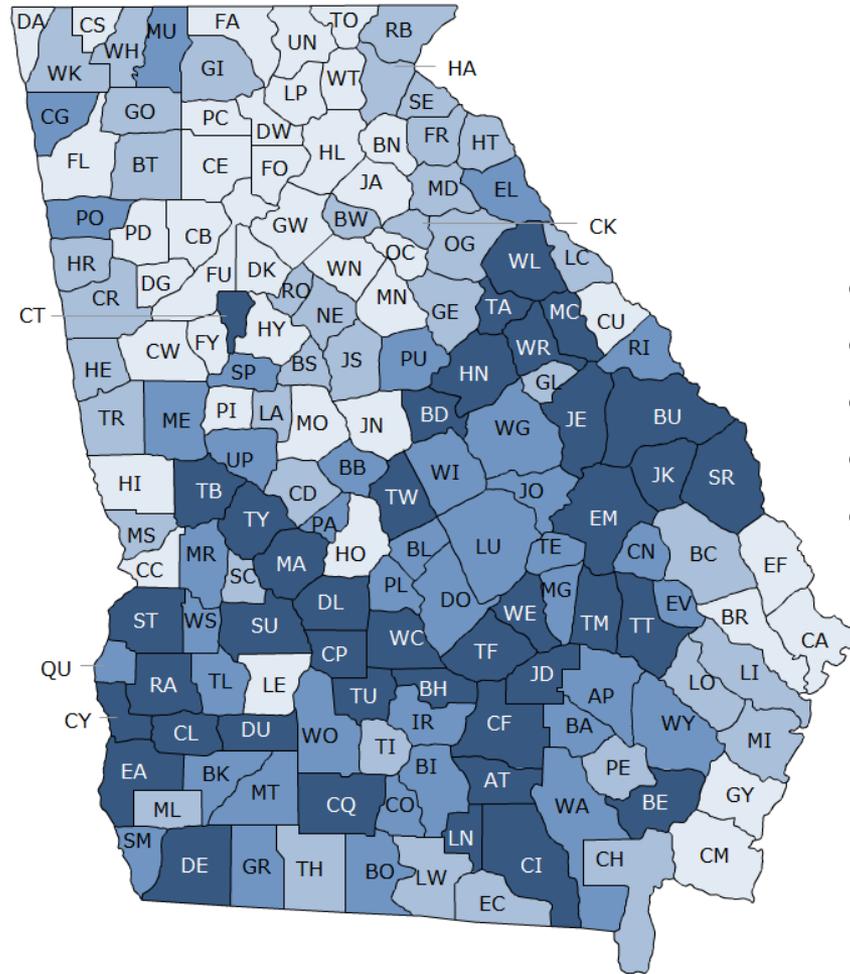

Health Factors

Ranked Highest

- Oconee
- Forsyth
- Fayette
- Columbia
- Cobb

Ranked Lowest

- Wheeler
- Clay
- Telfair
- Emanuel
- Macon

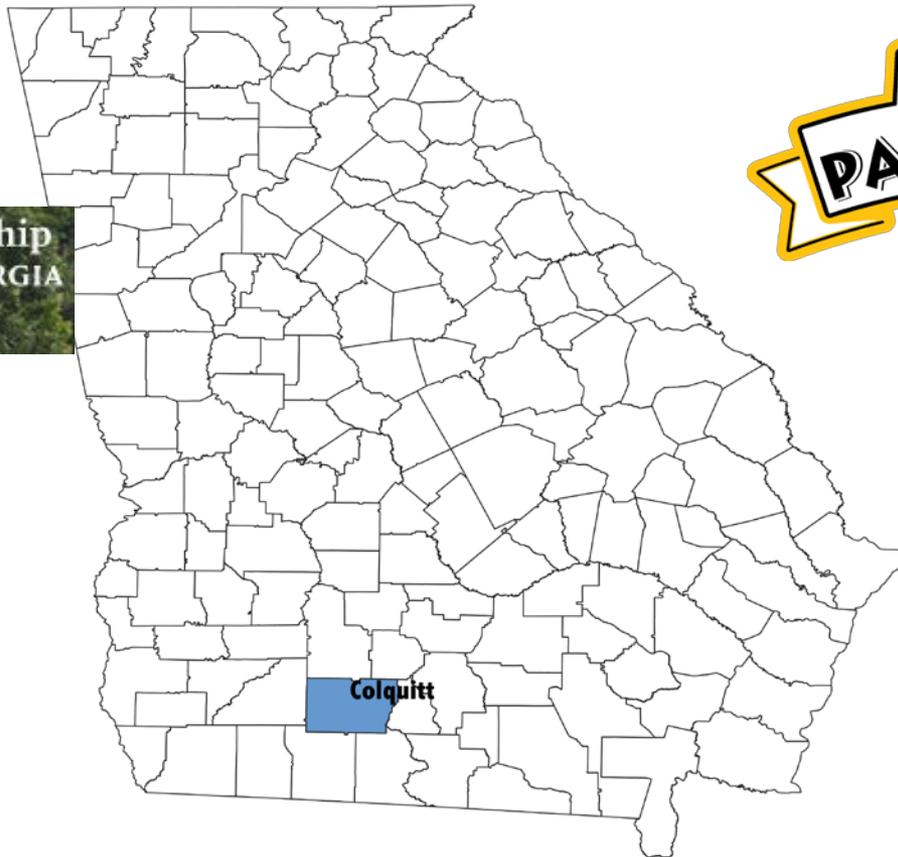

Moving with Data to Action

- Until we improve the social and physical environments in which **all** Georgians live, their income, and their educational achievement, it is unlikely that we can improve their health.
- This will require a close collaboration with public health, education, the private sector, economic development, chambers of commerce and other groups who may not have traditionally worked together.

Healthier Together: Facilitating Policy, Systems, and Environmental Changes in Rural Communities

**Live Healthy,
Work Healthy**
