

# Clinical and Translational Research Seminar

## “The Effects of Circadian Disruption on Performance and Well-being”

Presenter:

**Gianluca Tosini, PhD**

Professor and Chair of the Department of  
Pharmacology and Toxicology

**Thursday, September 10, 2009, 1:00 - 2:00 pm, MRC Bldg, G-14**

Sponsored by the Master of Science in Clinical Research Program | ACTSI | Clinical Research Center

Training opportunities of the MSCR Program include: ACTSI K12, TL1 | Stanford RCMI CTR | Certificate | CRECD Phase I and Phase II

The Master of Science (MS) degree program is a broad-based multi-disciplinary graduate level program in clinical research designed to prepare clinical and translational research faculty, residents and others for a career in clinical research. The program provides training in the principles and methods of biostatistics; epidemiology, including genetics and clinical trials; and outcomes research, including health services research and health economics; and application of these principles/methods to clinical research.
